SUBSCRIPTIONS TO THE EVENING WORLD

DO NOT PUT IT OFF.

The Free Doctors' Fund for the Sick Bables is something that cannot be too strongly impressed upon the readers of THE EVENING WORLD. The contributions which have come in already prove the same prompt sympathy with the human sorrow involved in the sickness of a poor child which has been so generously shown in past years. These good folk need no spur.

But it is to those who from a knack of procrastinating, or through a good-natured indolence, or on account of stress of business cares put off doing anything in this worthy cause that exhortation is in order. They, as a rule, are no more hard-hearted than anybody else. They simply feel that giving something to the Fund is not an

This is not the right view to take. Those suffering children will be relieved by prompt aid and may escape much pain and n through early contributions to the Free Doctors' treasury. Do not delay. There is nothing gained by it. Send what you intend to send at once. You do more good and it costs no more.

## TOO BOORATIO.

The candidates for the position of Police Matrons have been put through a course of questions to test their capacity for the duties of the office. The questions were practical enough, but it should be borne in mind that a woman who would be quite equal to the practical solution of a difficulty might not give a good answer as to what she would do when the case is theoretically Common - sense, a good temper and

knowledge of human nature are the main qualifications demanded in a police matron. As the office is one to be created, the practical duties must be learned chiefly by experience, and to demand of a woman a clear, adequate idea of just what she would do in an emergency does not seem an alto gether fair test. A woman with the qualities aforesaid

and proper degree of firmness will be likely to fulfil the duties of Police Matron satisfactorily, and it will probably be safe to select such even if they do halt over writing the absolutely correct theoretic answers to categorical questions.

## THE WAY OF ONE TRANSGRESSOR.

Burdens accumulate upon the erring head of Philadelphia's ex-City Treasurer, JOHN BARDSLEY. Prostrated by sickness. he is guarded at his home by the officers of the criminal law, with the prospect of jail life before him should he recover sufficiently to be moved from his bed. Confronted by charges of misap propriating \$39,000 of the city's money and also funds belonging to the State, he could only secure even a form of liberty by furnishing \$50,000 bail, and should be finally be able to secure this surety he will still be held under surveillance, it is announced, since pending investigations are likely to show new delinquencies at any moment, In the case of this transgressor the way

is certainly proving a hard one, and from the vigorous conduct of the search for evi dence to be used in the prosecution harde times yet seem in store for BARDSLEY. It is estimated that BARDSLEY's required

tail total represents one-thirtieth of the public money his mismanagement has either lost or endangered.

On the face of it there seems no excus for the cold-blooded shooting of Private McLean, of Battery I, at Fort Hamilton by Private NaLson, of Battery A. The soldiers, it seems, beguile their leisure in

the evening by betting at a hotel near the fort. McLean had accused Neton of winning by sharp practice NELSON thereupon got his gun and, later, shot McLEAN, who died last night of the wound. Such an affair is sad enough at best, but to take place among Government ps gives it the nature of a scandal, and the ili savor of it is not helped by the lement that if every responsible suborlimate at the fort had done his duty the tragedy could not have occurred.

The case of a Maryland Sheriff in regard a three men of the same name is very dole-

ful. He paid money he owed to No. 1 to No. 2, and then when No. 1 claimed the debt imprisoned No. 3 in the belief that he was the unjust No. 2. Whereupon No. 3 sued for malicious prosecution and recovered \$405. Everybody except the Sheriff and No. 1 seem to have profited by the fact that there were three of a kind.

BLAIR'S RULING PASSION.

The Senator's Educational Bill Is Ex-Senator Blair was obliged to leave the city in a hurry owing to his misinterpretation of the time card, says the Chicago Herala. He did not have sufficient time to gather up all his luggage, and the clerks at the Auditorium were requested to send some of the things to Washington. While hurriedly giving orders at the office the cashier asked: "How about your bill?" supposing that Mr. Blair would order it forwarded to Washington to save a delay then in mak-

ing change.
"What do you know about it?" asked the ex-Senator.

"No one is more familiar with it than
I," laughingly replied the cashier.

"Have you studied it?"

"Very carefully."

"Well, I'm highly pleased to find such a student. Don't you know that the Republican party made the mistake of its life in not taking care of that bill. It's lost now, at least for a while. I wished it could have been settled."

"Ho you mean to say that the bill won't "Do you mean to say that the bill won't be paid?" asked the astonished cashier. "Paid! What bill are you talking
